(30) Priority: None  
(73) ALEGO JOSEPH OKELLO of P.O. BOX 27-50413, Adungosi, Busia, Kenya  
(72) ALEGO JOSEPH OKELLO, P.O. BOX 27-50413, Adungosi, Busia, Kenya  
(74) None  
(54) COCKROACHES INSECTICIDE  
(51) A 01N 25/00  
(57) Masi paste, crystals and powder is cockroaches insecticide manufactured by Mifo Enterprises since 2006 without poison to kill different species of cockroaches and their eggs after hatching: it also kills new cockroaches that come in many months after application.

Among other insect pests, cockroaches can come out of their outer cover of their bodies. Move from one place to another by crawling, flying, in containers e.g. bags, machines e.g. vehicles, liquid e.g. water, food e.g. bananas etc.

Cockroaches like dirty places e.g. dump sites, septic tanks, latrines holes. They also like clean areas e.g., kitchen, tables, drawers etc where they hide day time and come out at night and can infect you with typhoid and you spread in communities if you eat food they walked on.

Spray and contact cockroaches insecticide is ineffective considering how cockroaches move and where they stay.

Masi will kill cockroaches in hot and cold weather, clean dirty and dump areas, covered and exposed places e.g. inside rooms, vehicles, outside fenced walls, inside pit latrines holes and is not destroyed in contact with water or if rained on.
