On Wednesday, January 18, the Vice Chancellor Prof. Paul Zeleza convened a baraza to formally launch the re-affirmation of accreditation process that the university will be undertaking, over the course of the next eighteen months.

Accreditation is a process of external quality review which serves to assure students, parents, policymakers, the broader educational community, and the general public that an institution has met high standards of effectiveness. USIU-Africa is accredited by the WASC Senior College and University Commission (WSCUC) - one of seven regional accrediting agencies in the U.S. A major benefit of USIU-Africa’s accreditation is that credits and degrees are recognized for purposes of employment and transfer or admission to other institutions in the United States.

Every six, eight, or ten years, institutions accredited by WSCUC are reviewed to reaffirm their accreditation status. The two- to three-year process of reaffirmation of accreditation usually involves the completion of an institutional self-study and institutional report, an off-site review by WSCUC, and an on-site visit from the WSCUC team.

In preparation for the institutional self-study and institutional report, USIU-Africa has organized a steering committee, a taskforce and a self-study team to lead the process of reaffirmation of accreditation, with guidance being provided by the Office of Quality Assurance through its Director Dr. Oliver Amwayi, and the Accreditation Liaison Officer Prof. Angelina Kioko (Professor of English).

Complete and detailed information on the process will soon be available on our website.

Dr. Mwambari presents paper at prestigious African studies conference

Assistant Professor of International Relations, Dr. David Mwambari presented a paper “Individual and Collective Memory in post conflict African countries” at the 59th Africa studies Association Conference. The conference held on December 2nd 2016 in Washington DC and was themed “Imagining Africa at the Center: Bridging Scholarship, Policy, and Representation in African Studies.” The paper explored the tensions that arise when individual memory is co-opted into a historical and political narrative to serve the needs of a State or a society emerging from war.

The African Studies Association that our Vice Chancellor was once the president (2008-2009), is the flagship membership organization devoted to enhancing the exchange of information about Africa and encourages the production and dissemination of historical and contemporary knowledge about Africa.

Supervisors attend leadership training

Assorted staff supervisors and middle-level managers attended a three-day Leadership Skills Development Training Seminar held at the Kenya School of Monetary Studies (KSMS) in Nairobi from December 14 – 16, 2016, and January 9 – 11, 2017. The seminar was designed to equip participants drawn from all university departments, with high-level supervisory and managerial skills necessary to effectively manage and run various university units.

Led by consultants from ACT Consulting Limited, participants were taught how to appreciate colleagues, support and enhance individual contribution, set expectations and plan for succession.

The seminar is part of a broader leadership program currently being executed by Human Resources, that will next involve members of the Management Board.
